

Dear sisters and brothers,

Many of your members are deeply upset at being excluded from the government's pandemic pay premium of \$4.00 an hour.

We also have an ongoing problem with access to adequate personal protective equipment.

To put pressure on the Ford government we are asking you to organize your members to take a few moments at the afternoon shift change to protest in front of the hospital, respecting social distancing and to hold up the poster below on Thursday, May 14.

Please take photos and send them to us and ask your members to post on social media.

Members can also write their job title on a piece of paper (write **BIG** and **BOLD**—sharpies work best!) that they can hold up along with the official poster to show disparity between job classifications.

A very creative example of this from Peterborough is attached,
Please call us if you have any questions.

In solidarity,
Michael, Louis, and Sharon
