PANDEMIC PAY

The Government has announced that frontline workers will receive a \$4.00 an hour wage increase and are calling it Pandemic Enhancement Pay.

There are many questions with this increase and many classifications are not listed. The list does say “and other key workers”. There are over 100 classifications so all can’t be listed. The Union is seeking further clarity but the Union’s position is all hospital workers are covered. When we have further information, we will get it posted.

Thank you and stay safe,

Dave Murphy
